

2015 ANNUAL REPORT

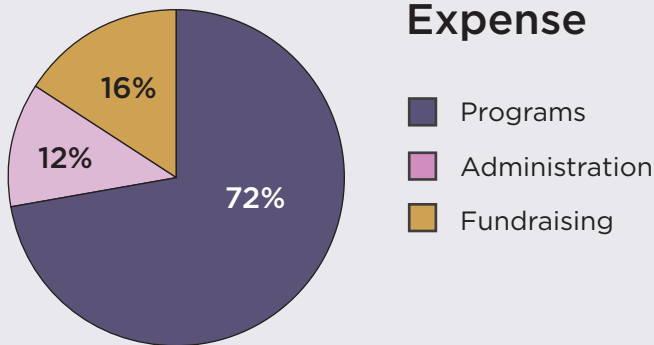

Helping women with breast cancer chart a course and find their way forward.

\$30k

The grant awarded to BCRC from The Avon Foundation for Women - the first ever received from a national organization - recognizing BCRC as experts in serving women with metastatic breast cancer.

Thank you for arranging the most wonderful volunteers to get me to all my appointments and for delivering delicious food. I don't know where I would be if it hadn't been for BCRC ensuring I was taken care of.

- S.T., BCRC client

2,409

The number of women in our community who received guidance, education, and assistance needed to face breast cancer, thanks to your generous support.

93% of the issues standing in the way of treatment were overcome with the help of a patient navigator.

10% Increase in the number of women served over last year

“ You helped make this very scary experience bearable and provided us with valuable information and explanations. To be honest, I’m not sure we could have kept it together without your help. ”

- M.S., daughter of BCRC client

74

The number of women in treatment who received financial help to meet their basic needs - more than ever before!

9,367

Hours of patient navigation

With your help, we provided free-of-charge:

227

Mamograms

65

Ultrasounds

34

Biopsies

110

The number of physicians and health centers with whom BCRC has partnered to improve care coordination and increase referral resources.

Newly Diagnosed:

BCRC conducted 5 intensive six-week courses, teaching 35 newly diagnosed women how to cope with the complex emotions that come with a breast cancer diagnosis

After Breast Cancer:

BCRC launched a multi-week survivorship course - the first of its kind in Central Texas - to address the issues women commonly face when treatment ends.
